Happy Women's History Month!

Women's History Month is celebrated to remind ourselves of the accomplishments of women throughout the years to culture and society.

From scientists, to artists, to politicians, it is a chance to reflect on determined and impactful women who lead the way for change.

International Women's Day is March 8th every year!

There's no time like the present to get organized! Here are a few ways to prepare as an international applicant:

- 1) Get documents in order
- 2) Take advantage of recruitment fairs, webinars, other events
- 3) Increase and document participation in extracurricular activities

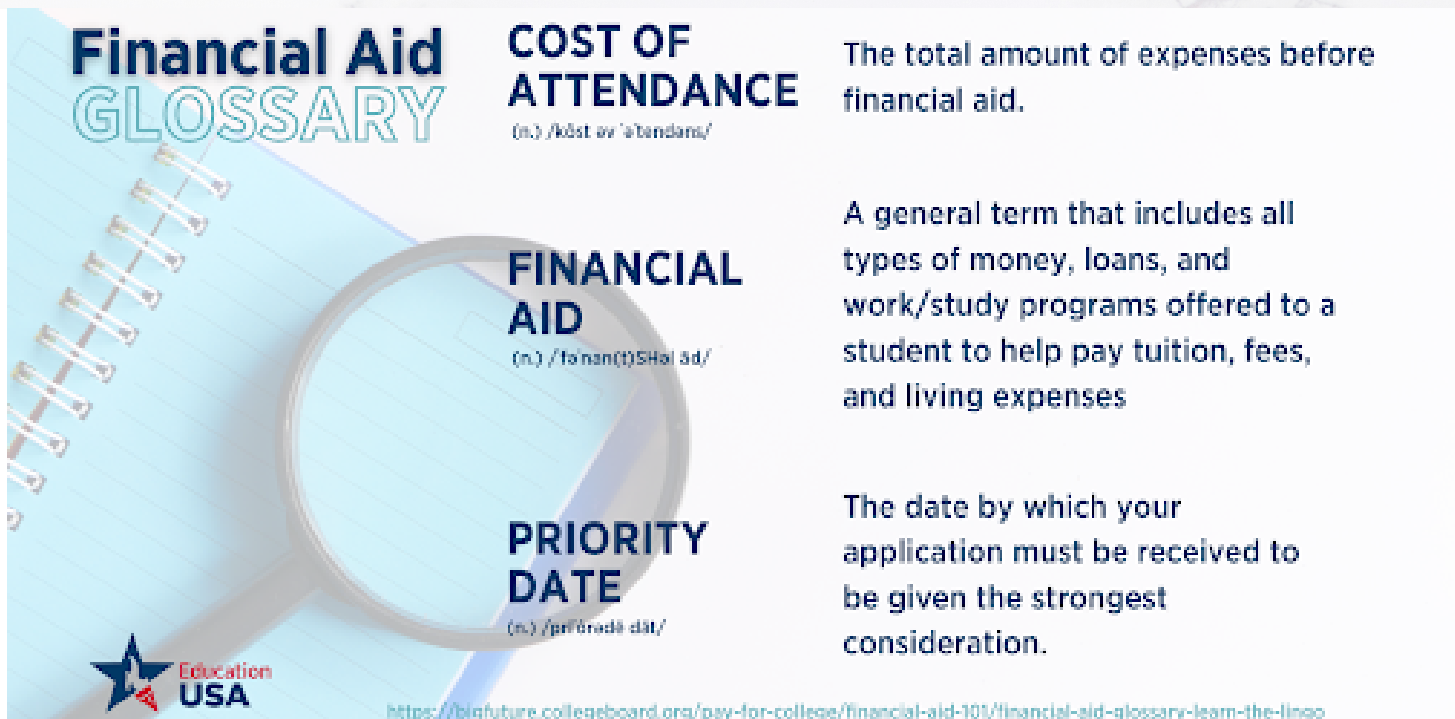

Most schools with a department of economics offer M.A., M.S., and Ph.D. degree programs

Graduate programs in Public Policy combine economics and politics in order to give students a well-rounded background in policy development.

Since there are many fields within public policy, students are often required to choose a specific concentration, such as urban policy, labor development, or educational policy.

This degree helps students prepare for careers in the government, politics, and public affairs in the public, private, and non-profit sectors.
